Summary

Cybersecurity-focused Computer Science student with hands-on experience in network scanning, vulnerability assessment, and ethical hacking fundamentals. Skilled in reconnaissance, enumeration, and basic exploitation techniques.

Education

B.E. Computer Science and Engineering — Acharya Institute of Technology 2023–2027
Class XII (Science) — +2 ANTI High School, Nawada 2023
Class X — Braj Indu Gyan Bharti Public School, Nawada 2021

Experience

Cybersecurity Intern — Uptoskills Dec 2025 – Apr 2026

- Performed reconnaissance, scanning, and basic vulnerability assessment following ethical hacking methodology
- Conducted network enumeration using Nmap and Nuclei to identify potential security issues
- Analyzed common web vulnerabilities and practiced basic penetration testing techniques in lab environments

Technical Skills

Programming: C, C++, Python

Networking: TCP/IP, DNS, HTTP/HTTPS, Network Troubleshooting

Cybersecurity Tools: Nmap, Netcat, theHarvester, Nuclei, SQLMap, Wapiti, Burp Suite (Basic), Metasploit (Basic), Hashcat (Basic), Impacket (Basic)

Security Concepts: Authentication, Authorization, Encryption, Vulnerability Assessment

Tools & OS: Git, GitHub, Kali Linux, Ubuntu, VirtualBox, VMware

Projects

- **AHRAS — Automated Threat Detection System (Ongoing)** [GitHub](#)
 - Developing a system to monitor web traffic and detect anomalies indicating potential security threats
 - Applying machine learning techniques (Pandas, NumPy, Scikit-learn) to classify normal vs suspicious behavior
- **Network Reconnaissance and Basic Security Testing**
 - Performed reconnaissance and scanning to identify domains, open ports, and running services
 - Conducted basic vulnerability testing and analyzed potential attack surfaces
- **Video Summarizer and Quiz Generator** [GitHub](#)
 - Developed a web application to generate summaries and quizzes using NLP techniques
- **Real-Time Object Counting using Morphology** [GitHub](#)
 - Built a computer vision system for real-time object detection and counting using image processing techniques

Certifications

- Google Cybersecurity Professional Certificate (In Progress)
- Ethical Hacker — Cisco Networking Academy [Credly](#)
- Network Security & Database Vulnerabilities — IBM [Credly](#)
- Kali Linux Basics — Board Infinity

Certificate verification available at: [Coursera Profile](#)

Leadership

- Led Manthan 2025 project team (EcoCycle Solutions), coordinating tasks, managing timelines, and contributing to successful project presentation and finalist selection
